## A Message from Ascapart

We are proud to bring speciality coffee roasting right here to our home city of Southampton. Our first Mettricks Roasted House Coffee is a real Brazilian crowd-pleaser. Brazilian coffees to me are what great all-rounder espresso should taste like. That subtle sweetness that smoothens out at the finish & is exactly what this natural & pulped natural from the region of South of Minas in Brazil gives us.

In the town of Nova Resendes, Mariza Franco Mantovaninni harvests an average of 5000 bags of 60kg sacks each year, with altitudes ranging from 1097m 1188m. The varieties currently planted - Mundo Novo and Red & Yellow Catuai. Planato Estate Coffees have the typical features of body and sweetness, excellent aroma & moderate acidity.
